Provider Profile

State of Connecticut

Department of Developmental Services
460 Capital Avenue, Hartford, CT 06106

Information provided by the provider describing their agency:

Easter Seals Greater Hartford is a private, not-for profit, rehabilitation facility. The center serves approximately 1,000 persons each year through its medical rehabilitation and vocational rehabilitation programs.

The mission of Easter Seals Greater Hartford Rehabilitation Center is to provide comprehensive medical and vocational services to people with disabilities in order to maximize their independence and self-sufficiency.

Vocational Evaluation and Situational Assessment services are designed to assess the vocational capabilities of persons with mental, cognitive, and/or physical disabilities. Standardized tests, Center-based work samples, and community work settings are used to identify clients' skills, strengths, and interests.

Job Placement and Development services are designed to meet the client's immediate and long-term goals. "Job ready" clients may participate in a job seeking skills training program, which teaches them how to market themselves to prospective employers.

Work Readiness Program is a 45-day program designed to assist participants in learning the skills needed for success in an entry level position. This includes Customer Service Skills, Telephone Etiquette, Dealing with Stress and Conflict, Teamwork, Work Appropriateness, and maintaining a positive attitude. Mock interviews, the application process, and email etiquette are also included.

Work Adjustment Program provides individuals with support in a center based work environment and a community based work environment. The program provides behavior modification directed at work-related elements such as attendance, grooming, punctuality, time on task and other behaviors that would interfere with obtaining and maintaining employment. Individuals earn a paycheck based on productivity levels every other week and earn seven paid holidays.
